

Our **Multi Mat System** is designed to support high capacity lifting with the flexibility to use in various configurations

PREMIUM PADS

High performing outrigger pads offering incredible strength, rigidity and load distribution - they're built to last!

- Engineered from high performance UHMW Polyethylene
- Resistant to water, oil and chemicals
- Lightweight and easy to handle
- Stored and positioned with minimal effort

ROUND

Dimensions (mm)	Load Capacity (tonnes)	Weight (kgs)	
1200x60	90.00	64.00	

MULTI MAT SYSTEM

Designed to support high capacity lifting, in particular all terrain cranes, our Multi Mat System is easily transportable and offers the flexibility to use in various configurations.

- Engineered from high performance UHMW Polyethylene
- Resistant to water, oil and chemicals
- Quick and easy to set-up

MULTI MAT SET-UP

Please note: Ensure there are no gaps or debris present in the set-up. If in doubt refer to your lift plan.

ORIGINAL MULTI MAT

Dimensions (mm)	Load Capacity (tonnes)	Weight (kgs)	Product Code
1500x500x50	up to 110.00*	35.00	IP-57709
1800x600x50	up to 160.00**	52.00	IP-57710
1000x60 (to secure)	60.00	45.00	IP-57683
1200x60 (to secure)	90.00	66.40	IP-57685

Capacity based on complete Multi Mat System. *3m² Configuration requires x7 mats.
 **4.32m² Configuration requires x7 mats

The Multi Mat system has been tested and approved by Lloyds British.

Subjected to a Finite Element Analysis (FEA).

CONFIGURATION OPTIONS

1500mm

ORIGINAL MULTI MAT

1.50m² Configuration

Requires:
IP-57709 x 2
IP-57683 x 1

2.25m² Configuration

Requires:
IP-57709 x 5
IP-57683 x 1

3m² Configuration

Requires:
IP-57709 x 7
IP-57685 x 1

1800mm

ORIGINAL MULTI MAT

2.16m² Configuration

Requires:
IP-57710 x 2
IP-57685 x 1

3.24m² Configuration

Requires:
IP-57710 x 5
IP-57685 x 1

4.32m² Configuration

Requires:
IP-57710 x 7
IP-57685 x 1

Please note: Capacity based on complete Multi Mat system. These configurations are calculated for the max ground pressure of 5kgs/cm², for normal operational conditions. Our Multi Mat system recommends a round pad to secure, but a square pad is equally suitable.

LARGE CRANE MATS

Maximum strength and support for the toughest lifting applications. With load capacities of up to 300 tonnes, our high performing crane pads are engineered to withstand extreme vertical pressure and deliver excellent load distribution.

Dimensions (mm)	Load Capacity (tonnes)	Weight (kgs)	
2000x1500x100 (4xCH)	180.00	200.00	
CH (Chain Handles)			

GROUND PROTECTION MATS

Highly versatile **GROUND PROTECTION** mats designed to create temporary roadways or large surface areas for moving heavy machinery and vehicles across soft ground.

Engineered to withstand heavy load transfers, they provide maximum support with minimal disturbance to the ground. Use with our Easy Join connectors for a low-cost and safe temporary surface area.

- Non-slip extruded surface on both sides for superior grip
- Flexible to configure using Easy Join connectors
- Lightweight & easy to handle
- Resistant to water, oil and chemicals
- Manufactured from High Density Polyethylene (HDPE)

Dimensions (mm)	Load Capacity (tonnes)	Weight (kgs)	Product Code
1800x900x12.7	40.00	24.00	IP-72032
2880x1440x15	65.00	65.00	IP-72011
Link Bar - 4 way	-	-	IP-72014
Link Bar - 2 way	-	-	IP-72013

4 Way Link Bar'
IP-72014

2 Way Link Bar
IP-72013

IP-72011

IP-72032

Integrated handles designed to be easily gripped and safely manoeuvred around the work site.

Our mats are specified to a size that accommodates the width of most vehicle, crane and equipment chassis.
